WELL ATTENDED MEETING B. OF T. ON WEDNESDAY

With the largest audience recorded at a Board of Trade meeting for many months, the local organization held a busy, but short session in the Royal Cafe on Wednesday afternoon of this week. President James Johnston occupied the chair and conducted the meeting.

Following luncheon minutes of the last regular meeting were read, and adopted.

Reports of the Entertainment and Exchange Committee and the Section of War were well received and accepted. It was pointed out that the entertainment committee had done splendid work in presenting the dance recently in aid of the Red Cross, and had expended a large amount of time and energy for their active work.

Mr. H. W. Harper presented a detailed report of the financial outcome of the First of July Celebration in Bassano, showing that the Board had received a sum of approximately six hundred dollars from the day's activity. The report was passed around the table for all members to inspect, and a hearty vote of thanks was extended to Mr. Harper for his excellent work in which he organised much of the entertainment presented to patrons on that day. Mr. Harper was one of the men who spared neither time nor expense in seeing that the celebration would be of benefit to the community in the Bassano District.

Members present were informed of a new Youth Training Course for Farm Boys that was being organized by the Dominion and Provincial Government. Six schools were to be established in the province, one of which will be opened in Bassano between January 6th and February 13th. A complete outline of the course appears elsewhere in this issue. The school here is being sponsored by the Board of Trade, who will endeavor to see that it is a success.

Several minor items of business were thoroughly discussed before the meeting adjourned at approximately 5:30 p.m.

A drive for membership for the balance of 1940, and all of 1941 is to be conducted in the near future. Mr. Holmes, Mr. C. McKinnon, Mr. H. Beeler, Mrs. J. Harris, with the assistance of other members of the organization, will be in charge.

Pull Your Weight

JUST STOP AND ASK yourself what part you play in the building of your town or community, and what part you play in supporting Canada's War Effort.

You donate what you can spare! Well, that's as it should be. And people in our district have found room to spare considerable sums of money in support of our war efforts up to the present. So far as the war effort goes, however, it should be more.

But are you a voice in your local Board of Trade, the U.P.A., the Red Cross, the Ladies' Guild, the Legion? Interested in the actions of your town council, or the many organizations which spell success or decline to any district?

Everyone realizes that man should not hope to thrive or succeed on the lone labour of his brother. And nature, fate, or call it what you may, has a hand of its own in the matter.

The more shoulders in the wheel, the more the wagon and less are its chances of being stuck in the mud! If so, do your part, and give your assistance to push it over the top. You alone may not be able to do it, but there are other willing workers in every community who will join you. These are times of stress and work of every person has been doubled.

Now more than ever, it's time to "PULL YOUR WEIGHT!"

One Way Fare For Soldiers

ALL RANKS OF THE C.A.S.F. proceeding on leave during Christmas or New Year's will be able to secure return tickets at the minimum fare of one-way. The duration of the leave will be six days and no more than fifty per cent of the strength of any unit in any rank will be permitted to be away at one time. The Defence Department expressly stipulates that whether leave can be granted will depend in all cases on the nature of service being undertaken by the man concerned, the necessity of having certain types of training completed speedily, and the importance of the service from the point of view of the safety of the community.

The Department adds: "The guiding factor in the consideration of leave privileges to men on Active Service must be the defense and safety of the country and the obligations we are under by virtue of our war commitments. These have been duly weighed and fully discussed and their influence is to be observed in the decision now communicated.

Winter Sports

WITH WINTER definitely here, citizens of the town and district have been turning their thought to winter sports and pastimes. It appears that this winter, more than ever before, a larger variety of clubs and organizations will play prominent parts in occupying each individual time and attention. This will be to the advantage of many citizens of the community, although to some or all of the organizations it may prove a detriment.

We now have organized in Bassano a Men's Curling Club, a Women's Curling Club, a Rifle Club for both men and women, a Women's Physical Training Classes, and in all probability a Junior Curling Club and a bowling league will be formed, as well as skating and hockey.

Thus no person in the community should find it difficult to find something to do during the long winter evenings that are ahead. Make the most of the time, everything, and these persons are going to find themselves exceptionally busy.

Then there will be the regular Bridge sessions reorganized for the winter months, at which many of the older married couples will spend many enjoyable hours.

Picking Curling Teams

(From the Trochu Tribune)

THE ESSENCE of Curling is good fellowship and to get the best out of the game it is necessary to have four men on a rink of hundred spirits and we do not mean merely wet kind-folks who enjoy curling together, wet or dry, what makes curling enjoyable. You can't get it under the old concept plan where curlers are more or less arbitrarily placed on rinks—except by accident.

LAST WEEK We made a suggestion that red, white and blue lights be erected in place of the multi-colored ones, in the decorative lighting effect in the main hall of the theatre. The manager would keep the path free of snow, what a much nicer town for everyone it would be for the winter. Those who can afford the time to do the work will, with a little practice, enjoy the job, and it will do their liver a lot of good; others who cannot spare the time may be able to spare a little money to others who badly need the work and no doubt would take the job for the winter at a very nominal fee. Do your bit for the town, and like it.

KEPT SIDEWALKS CLEAR! (From the Fisher Creek Echo)—If every citizen that has a good enough mind to do it, the people of the town would keep the path free of snow, what a much nicer town for everyone it would be for the winter. Those who can afford the time to do the work will, with a little practice, enjoy the job, and it will do their liver a lot of good; others who cannot spare the time may be able to spare a little money to others who badly need the work and no doubt would take the job for the winter at a very nominal fee. Do your bit for the town, and like it.

TWO FEATURES OF WAR—(From the Drumheller Mail)—Looking back on the wars of other days we cannot help but conclude that this present conflict is being fought with more cruelty and viciousness, and with less regard for the sacred lives of innocent women and children, than ever in the past; yet at the same time another feature impresses one, which is that the kindness shown by people towards those who are suffering because the war is also greater than ever shown before.

"Well—it's a sort of give and take arrangement, Colonel—our fall manoeuvres—his fall plowing!"

LOCAL HOSPITAL BOARD REPRESENTED AT CONVENTION

S. H. Edwards, Secretary; Mr. Bartsch, Majerville, Director; To Two-Day Conference

Mr. S. H. Edwards, secretary of the local Municipal Hospital, and Mr. Bartsch, member of the board for the Majerville District, spent Monday and Tuesday of last week attending a convention of Alberta Municipal Hospital Administrators in the Palliser Hotel, Calgary. The report of the Secretary, to be tendered to the Board at its regular meeting on Saturday, December 8, indicates that a busy time was had at the convention, and generally a successful convention was held.

Opening on Monday morning at 9 a.m. approximately thirty delegates registered attendance at the meeting. A large part of the convention was devoted to the moving and adopting of resolutions, to be submitted to the Provincial Depart-

ment of Health, suggesting changes in the Municipal Hospitals Act. Mr. Taylor, of Hanna, presided at the sessions. The Chairman, executive, and Committee were read and accepted.

Principal speakers at the convention were president of the Association, Mr. Taylor; Dr. R. T. Washburn of the University Hospital; Dr. Edward G. McKee, Medical Superintendent of the Hospital; Miss Bestie, Matron of Drumheller Municipal Hospital; Dr. Clark of the Municipal Districts Association; and Mr. W. A. Shoultz, Supervisor of Municipal Hospital.

The secretaries of the convention, it was decided that arrangement would be made whereby any Community Hospital of the province could join up with the Municipal Hospitals Association by paying regular association fees. Previous to this time, Community Hospitals have not affiliated themselves with any Hospital Association.

The Red Cross Convention, it was decided that arrangement would be made whereby any Community Hospital of the province could join up with the Municipal Hospitals Association by paying regular association fees. Previous to this time, Community Hospitals have not affiliated themselves with any Hospital Association.

The Red Cross Dance, scheduled to be held in the Gem Community Hall on Friday evening of this week has been postponed until Friday of next week, according to information given by the Gem Community Center today. Persons who were planning on attending the function are requested to note the change of date, and inform others.

It is understood that many farmers in the district have again turned their attention to the cultivation of the fields, and are harvesting what grain they may while it is frozen. Grains being harvested are growing tough.

GEN. H. TAYLOR
TO CALGARY CHEMIST
Mrs. Walker and children, Neil, Jean and Taylor, all of Gem, journeyed to Calgary last week-end, where Taylor was admitted to a Calgary Hospital to receive specialized treatment to an eye injury he received in Gem a year ago. Taylor was injured when an explosion occurred in Chemistry class at the Gem School, several pieces of glass lodging themselves in his eye. At the time he received medical treatment, and it was beyond the eye wall, and it became normal. However, recently it was found that there are still other little pieces of glass to be removed before full recovery of the organ may be expected.
